

## Fulbright-Cottrell Award 2022

## *Endorsement Page*

### Conditions of the Fulbright-Cottrell Award

The Fulbright-Cottrell Award is a contribution to the scientific and academic program of the institution and is to be used for support of work described in the application prepared by the principal investigator and adopted by the institution.

If this proposal requires adaptations to exploit promising leads, the principal investigator should feel free to make appropriate changes in the emphasis or direction of the work as it progresses. Should major changes be contemplated, prior approval by the German-American Fulbright Commission (Fulbright Germany) must be obtained.

Faculty salaries, indirect costs or overhead, and secretarial assistance are not chargeable to the award.

The applicant must submit financial and scientific reports to Fulbright Germany. Three reports are due annually within the 30 calendar days of the 12-, 24- and 36-month anniversaries of the award start date. Failure to provide the first or second annual reports may result in suspension of the award and a request to return unspent funds. Failure to provide the final report will result in suspension of the award.

The principal investigator is urged to publish findings in the appropriate scientific journals, acknowledging the support of Fulbright Germany.

The Fulbright-Cottrell Award is a true award to the institution, not a contract for research with the institution or the principal investigator, and Fulbright Germany disclaims any rights in the results of the research.
